Adequate, potable water is a prime concern when buying real estate. With Colorado's population expanding, the clamor for more water is never-ending. Colorado law is quite specific about how water may be used and who may use it. Topics include wells, septic systems, surface water, and water rights, as well as what a broker must know when listing and selling property. Learn how Colorado gets, stores, distributes, and uses its water. Current water issues will also be discussed.
